

Learn Fast

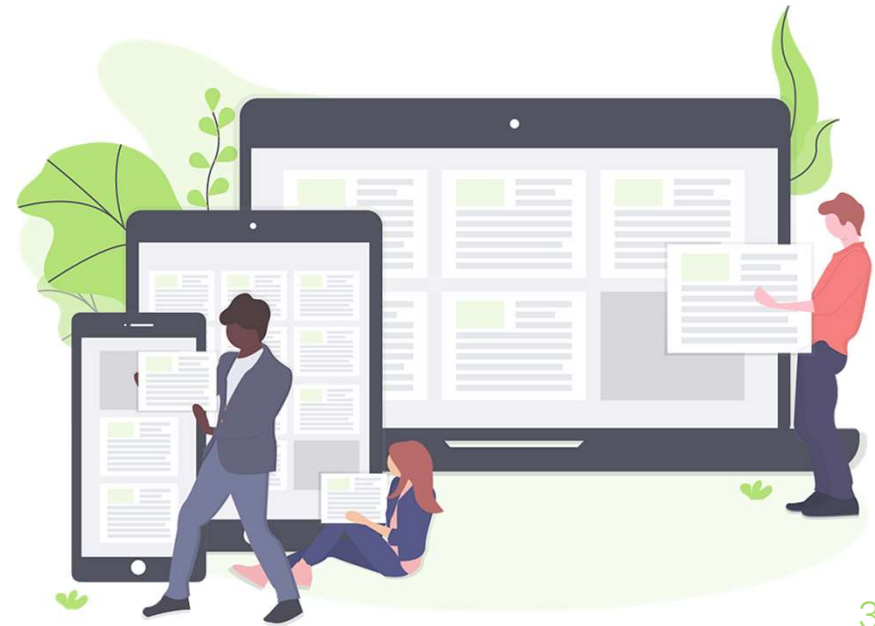

Name: Le Van Ky Du
Date : 13/01/2024

1. Introduction

The importance of learning efficiently in today

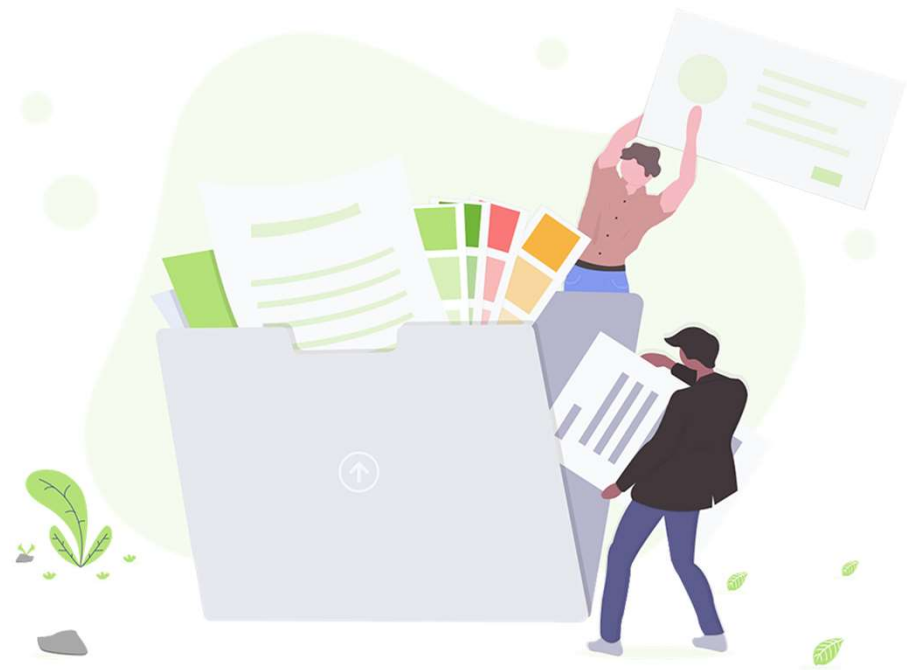

- "There is no one-size-fits-all approach to learning. Each of us has different abilities, so learning methods should be designed individually to achieve the best results. This slide will help you design a suitable learning method for yourself.

Some advantages of learning-fast ?

- Help you save time. Studying for a long time and staying up all night will only make your mind and health more tired. Instead, studying properly will help your mind relax, and you will have more opportunities to meet friends, visit family and take care of yourself.
- In addition, It also help you absorb knowledge more easily and understand many times faster without having to encounter too many difficulties.

2. Applying the learning-fast

To applying the learning-fast

1. Define Your Learning Goals

- Helps you shape your desires and figure out what you need to do to achieve them. Once you have determined this, you will certainly have a more serious working spirit and hard-working attitude.
- Avoid getting distracted by irrelevant things or slowing down your learning process. Avoid procrastination, loss of motivation and loss of inspiration to continue.

2. Make a suitable study plan:

Help you not forget any work as well as remind yourself to complete the assigned tasks. By classifying and arranging work items in order of importance and completion time.

To applying the learning-fast

3. Full notes

You need to take clear notes and present them briefly and concisely with the main ideas.

4. Apply learned knowledge into practice

The best way is to apply that knowledge to life. Thanks to that, we can understand the nature of that knowledge and remember it longer.

To applying the learning-fast

5. Believe in yourself:

This is the last and important thing. Faith is always a solid foundation for success. Having confidence in one's own abilities will create motivation to strive and enthusiasm to persevere to the end.

Thanks!
